1 The Forest Stewardship Council is an international non-profit, multi-stakeholder organisation established in 1993 that promotes responsible management of the world's forests. 2 Certificate for awarding and use of 'ok compost' conformity mark. By VINCOTTE nv. 3 Not solid colour and no edge-to-edge printing

1

Avoid dark solid colours printed edge to edge. If you do try to run solid colours the ribbon may stick to the face of the card and tear.

2

Full bleed, full colour images without large solid areas of colour will print. You may hear the ribbon 'stretching' during the printing process.

3

Perfect for ID cards with a mixture of black and white and colour images.

4

Black only overprint works with both Mono (resin) and four colour (YMCKO) ribbons.
