Event Card Printer

Professionals choice for ticketing and accreditation purposes, where oversized cards are required.

Direct to Card Printing

180 full colour cards per hour. 1400 monochrome cards per hour.

CARDS-X
ECP-XL EVENT CARD PRINTER

Flexibility for oversized cards and the professional's choice for ticketing and accreditation purposes.

Easy to use the ECP-XL is based on a reliable dye sublimation printer and features a Plug & Play driver for Windows and Mac, standard native USB, a convenient display and a two-year warranty.

As well as printing at low sound levels, one of the ECP-XL Printers outstanding strengths is its fast printing speed; Up to 180 full colour cards per hour and 1,400 monochrome printed cards per hour.

Preprinted XXL-cards sized 88 x 124 mm or 88 x 140 mm can be personalised within a maxiumum printable area of 54,0 x 86,0 mm and with three selectable printing positions on the card. In addition, by turning the card manually even a double print can be applicated. Furthermore, inline encoding of a contactless chip is possible.

Visitors are issued convenient, large size badges in a matter of seconds.

ECP-XL – The latest specialist for special events.
