

PriceCardPro® FLEX+

The ultimate printing solution
for larger scale labelling.

PriceCardPro FLEX+

Introducing the PriceCardPro FLEX+

With PriceCardPro FLEX+, store owners around the world are able to create batches of up to one hundred 140mm long labels at a time.

The longer-length card will accommodate all mandated nutritional information for individual products, such as allergens. This will give your customers confidence in their choice. The printed information is easy-to-read from a distance.

You can choose from a range of colour dye films or even combine colours to print your branding template in the first pass and product information in a different colour in the second.

The FLEX+ comes with a fully comprehensive four-year warranty including a hot-swap loaner. So, you will never be without your printer. You will also have full access to the PriceCardPro technical support team.

Superior quality – The PriceCardPro FLEX+ has a wide colour spectrum making each print vibrant and colour-rich – perfect for photographs and a more accurate depiction of company logos and other images.

Easy set-up – The PriceCardPro FLEX+ integrates with an existing network infrastructure, reducing the set-up time and means little technical knowledge is required.

Reduced intervention – The PriceCardPro FLEX+ boasts a high level of durability so the risk of failure and requirements for human intervention is greatly reduced.

Efficient printing – Each full colour card (85.6 x 54mm) can be printed in under 23 seconds and less than six seconds for resin-only.

Updates and upgrades – Magicard's robust update process allows for updates to be applied to each printer as and when they are available. Upgrades are delivered electronically to the printer via Magicard's electronic upgrade web tool.

Printer features

 Optimised colour profiles	 100 Card input hopper	 High speed print	 4 MAGiCOVER
 Edge to edge	 Remote management	 Ethernet	 Rewritable
 Digital shredding	 DTC Photo quality printing	 VISUAL SECURITY HoloKote®	 VISUAL SECURITY HoloPatch®
